 CareChoice
 Cooperative

 **SUMMIT
 ORTHOPEDICS**
 Experience the highest level of care.

Summit Orthopedics provides the highest quality and most advanced, comprehensive care continuum for the diagnosis, treatment, rehabilitation and prevention of orthopedic injuries and diseases. Our team of 40 physicians and over 100 providers, 11 clinic locations, 2 surgery centers, and 5 therapy centers is dedicated to treating the full spectrum of musculoskeletal diseases, injuries, fractures and muscle and tissue repair.

Care is delivered by experts who specialize in:

- Elbow
- Foot and ankle
- General orthopedics
- Hand/upper extremity
- Hip
- Knee
- Shoulder
- Spine, neck & back
- Sports medicine

Summit Orthopedics has earned the trust of countless patients over the last 25 years. Our commitment to excellence will continue to drive successful outcomes and help patients return to an active, healthy lifestyle.

Our Partnership

Through a special partnership between Summit Orthopedics and CareChoice Cooperative, patients who are in need of rehabilitation after surgery can be placed into a select number of nursing homes for the purpose of transitional/short-term care. In each of the CareChoice centers, patients will receive physical, occupational and speech therapy up to six days a week to expedite the rehabilitation process and restore function.

You are invited to tour these care centers to discover which one meets your needs and the needs of your family. They are geographically located throughout St. Paul, MN and near Unity and Mercy Hospitals within the northeast suburbs so that you can remain in close proximity to your community and friends. We have also identified which facilities have dedicated Nurse Practitioners/physician teams who practice at each community. Other physicians may see patients at the care center or clinic. Please check with the Care Center on your physician's coverage.

CareChoice is a cooperative comprised of over 100 senior communities. The nursing homes are mission-driven, non-profit care centers with a long tradition of delivering the highest quality of care, both efficiently and affordably.

One of CareChoice's primary goals is to insure that patients who require rehabilitative care after surgery will achieve the highest level of independence and mobility through an individualized, outcome-based treatment plan.

Healthcare professionals within each nursing home work in collaboration with both primary care and Summit Orthopedics' physicians to insure that care is coordinated.
