

LOCATION: Fish Creek County Open Space is located in the extreme southeast corner of the county. The park has several sections and protects the Fish Creek corridor. The majority of the park is south of Carver Ave. and between I-494 and Highway 61. There are no official trails, but the site can be accessed from Pt. Douglas R, off of Carver Ave. Park where the creek goes under Pt. Douglas Rd. and follow the foot trails along the stream. MAP #: 19

HABITAT: Fish Creek is mainly oak woods, with some openings along the creek. Steep slopes dominate the area.

REGULAR BIRDS: The site is good for woodpeckers, including pileated. Wild Turkeys are common on the site. The oak woods are good for migratory and nesting warblers.
