

Metro Public Health Immunization Clinics January – June, 2012

- The Public Health Immunization Clinics offer all recommended vaccinations for children and some vaccines for adults.
- Some vaccines are supplied by the Minnesota Vaccines for Children (MnVFC) Program for children 18 years and younger who: 1) do not have health insurance; 2) whose insurance does not cover vaccines; 3) have an unmet deductible; 4) have met their health insurance cap; or 5) have Medical Assistance or other Minnesota Health Care Program. An administration fee is requested, but eligible children will not be turned away if unable to pay.
- Some clinics have vaccines for adults 19 years and older. Not all of these vaccines are available at low-cost.
- Some clinics are able to bill insurance, MinnesotaCare, or Medicare.
- Please call the specific county for payment options, information on administration fee, type and cost of vaccines available, cost and availability of travel vaccines and services, and cost and availability of vaccines and documentation to meet I-693 vaccination requirements.
- Services are subject to change.
- Parents or legal guardians must accompany those under age 18.
- Please bring immunization records with you.
