**Saint Paul - Ramsey County Public Health
29th Annual Swimming Pool Operator Seminar and
Certification by the National Swimming Pool Foundation**

The Saint Paul - Ramsey County Public Health's Environmental Health Section will again offer the National Swimming Pool Foundation (NSPF) Certified Pool Operator (CPO®) Training Institute for Swimming Pool Operation and Management. This nationally recognized course was established in 1974 to train and recognize qualified swimming pool operators. After successful completion of the course, each certified pool operator will receive a CPO® certificate from the NSPF.

Every public swimming pool in Minnesota is required by state rules to have a certified pool operator. **If you have not been certified since September 1, 2005 from one of the approved national certification organizations, you must attend a course and pass the exam.**

For those who are **currently certified**, but need to renew their NSPF CPO® certification, two (2) options are available. You may take either the full 2-day class, or an abbreviated one (1) day class. Course books will be provided for both classes.

The instructors for the course are staff of the Saint Paul - Ramsey County Environmental Health Section who are certified by the NSPF to teach this course. All instructors are Environmental Health Specialists with extensive experience in the swimming pool program.

All fees include the NSPF CPO® certification and NSPF course manual.

REGISTRATION DEADLINE IS WEDNESDAY, MARCH 28, 2012

**Applications with payment will be accepted on a first-come, first-served basis.
Late registrants will be responsible for purchasing their own course manual.**
